

EASYFORCE PERFORMANCE

EasyForce Performance from Meloq is a compact force-plate system designed to assess strength, balance, and movement mechanics. It captures real-time data on ground reaction forces, center of pressure, and weight distribution. Coaches and therapists can identify force output, asymmetries, and neuromuscular performance with objective metrics. The system supports isometric and dynamic strength tests, balance assessments, and basic movement evaluations. Intuitive software turns data into clear, actionable insights. Suitable for gyms, clinics, and coaching environments, it ensures consistent and repeatable measurements. EasyForce Performance enables personalized training, rehab, and long-term progress tracking.

PORTABLE AND RELIABLE IN GYMS,
CLINICS & PERFORMANCE CENTERS

DIGITAL DISPLAY SHOWS
REAL-TIME FORCE OUTPUT

MEASURES UP TO 500 KG
OF FORCE WITH ACCURACY

WORKS WITH STRAPS, GRIPS &
ANCHORS UNLIMITED TEST OPTIONS

TRACKS PEAK FORCE, AVERAGE
FORCE & TIME-TO-PEAK INSTANTLY

DELIVERS REAL TIME
DATA IN EVERY REP

OPTIMIZES ISOMETRIC TESTING
FOR EVERY MUSCLE GROUP

FAST SETUP SO TESTING FITS
EASILY INTO DAILY SESSIONS

- Optimized for measuring strength in compound, multi-joint movements, it is trusted by performance coaches, sport therapists, and trainers
- include anti-slip mats, calibrated connection cables, transport handles or carts, & data sync modules for stable setup, easy movement, & data capture

Technical Specifications

Peak Force Capacity
Up to 500 kg

Accuracy
Around $\pm 1\%$ for reliable results

Operation
Fast setup and easy operation for daily use

Dynamometer Design
Pull-type digital dynamometer design

Results Storage
Stores recent test results for quick comparison

Suitable Environments
Suitable for clinics, gyms, teams, and rehab centres

Measurement Types
Measures peak force, average force, and time-to-peak force

Test Patterns
Supports isometric strength tests for multiple movement patterns

Progress Tracking
Helps track asymmetries and strength progress over time

Time-Under-Tension
Time-under-tension metric for performance assessment

Modular Compatible
Compatible with straps, grips, and other modular accessories

Portable Design
Portable design for testing in any environment

We are a complete solution provider for all your Sport Science, Biomechanics, SnC, Physiology, Data Management, Data Analysis, & High Performance Management needs. We are your partners in excellence!
