

KICKR BIKE PRO

The Wahoo KICKR BIKE PRO is a premium smart indoor bike engineered to deliver an unmatched, immersive ride feel with realistic physical movement. It simulates outdoor rides with virtual shifting and customizable gearing, while the integrated tilt physically raises and lowers the entire bike to match ascents up to 20% and descents down to -15%. With a massive maximum power output of 2,500 watts, the virtually silent belt drivetrain provides lightning-fast resistance changes to your efforts. The intuitive 5-point adjustment system (stack, reach, setback, saddle height, and frame height) ensures a perfect custom fit that matches your outdoor bike's exact geometry. Connecting seamlessly to your favorite training platforms via WiFi, Bluetooth, and Direct Connect, it features all-new ergonomic handlebars and integrated game controls for the ultimate professional-grade indoor cycling experience.

Technical Specifications

Physical Grade Simulation

+20% incline to -15% decline, real-time chassis tilt

Motor-Driven Descent

Active flywheel drive replicates downhill kinetics

Elite Power Validation

±1% accuracy up to 2500W peak output

Five-Point Fit Architecture

mm-precise adjust across 5 geometric vectors

Adjustable Crank Length

165-175mm in 2.5mm steps, bear claw design

Virtual Drivetrain Emulation

Replicates Shimano, SRAM & Campagnolo groupsets

Wi-Fi & Direct Connect

2.4 GHz Wi-Fi + RJ45 wired port, zero dropout

Race Mode (10 Hz)

10× faster power data via Wi-Fi or Ethernet
