

KICKR

The Wahoo KICKR is a professional-grade smart indoor bike trainer engineered to deliver an ultra-realistic ride feel. It features a high-inertia flywheel and customizable KICKR AXIS feet that mimic the natural side-to-side movement experienced outdoors. With a massive maximum power output of 2,200 watts and the ability to simulate steep inclines up to 20%, it easily stands up to the demands of the world's most powerful cyclists. The trainer utilizes automatic calibration to ensure continuous power accuracy within +/- 1% without requiring any manual spindowns. Connecting seamlessly to your favorite training platforms via WiFi, Bluetooth, ANT+, and Direct Connect, the virtually silent system provides lightning-fast resistance changes for a superior indoor cycling experience.

- Dimensions (Legs Open): 51 x 71 x 43 cm | Weight: 21.3 kg | Power: 100-240V, 50/60 Hz | Max Rider: 113 kg
- Package includes: KICKR smart trainer, AC power adapter, KICKR AXIS feet, quick-release skewer, pre-installed 11-speed cassette & QR/Thru-Axle hub adapters

Technical Specifications

**Power Accuracy**

±1% for precise athlete testing

**Max Power Output**

Up to 2200W resistance

**Electromagnetic Resistance**

Instant, frictionless adjustments

**Auto-Calibration**

No manual zero-offsets needed

**Biomechanical Fidelity**

±5° lateral sway, axis feet

**Flywheel Inertia**

16 lb / 7.25 kg flywheel

**Incline Simulation**

Up to 20% gradient

**Direct Network Port**

Wired LAN, zero interference

**Wi-Fi Integration**

2.4 GHz built-in

**ERG Easy Ramp**

10s gradual resistance reapply

**Internal Odometer**

Tracks mileage & wear data

**Drivetrain Compatibility**

8-12 speed Shimano & SRAM

We are a complete solution provider for all your Sport Science, Biomechanics, SnC, Physiology, Data Management, Data Analysis, & High Performance Management needs.
We are your partners in excellence!
